20190624 - Sprint 10 Retrospective Meeting Minutes

Attendees: [Jasmine Batten](#) [Jonathan Dominguez](#) [Osniel Valdivia](#) [Diego Vera](#) [Mohammed Bhatti](#)

Start time: 1:00PM

End time: 1:38PM

What went wrong?

- Did we do a good job estimating our team's velocity?
 - No, we did not complete several of the user stories planned for this sprint
- Did we do a good job estimating the points (time required) for each user story?
 - No, the points for most user stories did not reflect the actual work done effectively
 - Refactoring took a lot longer than expected and was more complicated
- Did each team member work as scheduled?
 - Yes, all team members worked several hours in between daily meetings
 - Most team members continued to work over the weekend
- User stories were far too large and general

What went right?

- There was initiative to refactor and fix existing problems
- Created a pull request to integrate old code

How to address the issues in the next sprint?

- How to improve the process?
 - Narrowing down user stories will allow for work to be more accurately reflected
 - Making user stories more specific will lessen the confusion when checking acceptance criteria
 - Making user stories that won't be blocked by other user stories (less dependencies)
 - Schedule times to work together on user stories so things get done faster
- How to improve the product?
 - Reduce redundancy
 - Improve entities
 - Improve collaboration and communication
