

20190517 - Daily Scrum Meeting Minutes

20190517 - Daily Scrum Meeting Minutes

Attendees: [Jasmine Batten](#) [Osniel Valdivia](#) [Mohammed Bhatti](#) [Diego Vera](#) [Jonathan Dominguez](#)

Start time: 6:15pm

End time: 6:25pm

[Mohammed Bhatti](#) :

- What was done since the last scrum meeting?
 - Started looking at the EFWA Confluence space.
 - Looked at working with branches and videos.
 - Looked at feasibility study link.
 - Looked at "for next term students" link.
- What is planned to be done until the next scrum meeting?
 - Download final deliverable for EFWA and look over documents
 - Setup local development environment.
- What are the hurdles?
 - None.

[Jasmine Batten](#) :

- What was done since the last scrum meeting?
 - Started looking over differences between Java and C#.
 - Read over all architecture documents again.
 - Read over EFWA feature documents and how they relate to our features.
 - Read over source code files that relate to our project and see relationships between them via UML diagrams.
- What is planned to be done until the next scrum meeting?
 - Continue analyzing current project code base
 - Start deciding what user stories to be implemented in addition to the wish list
- What are the hurdles?
 - Understanding architecture and MVC model

[Diego Vera](#) :

- What was done since the last scrum meeting?
 - Researched FakeItEasy.
 - Started Stripe setup.
- What is planned to be done until the next scrum meeting?
 - Fix database issues and learn Nunit and how to work with FakeItEasy and setup stripe.
- What are the hurdles?
 - Database connectivity.

[Jonathan Dominguez](#) :

- What was done since the last scrum meeting?
 - Started looking at EFWA, watched four videos "For next term", started setting up Plaid & Stripe.
 - Started looking at EFEC code in Visual Studio
- What is planned to be done until the next scrum meeting?
 - Read through some feature docs for EFWA, plan features for EFEC
- What are the hurdles?
 - Did not understand plaid and stripe, emailed questions.

[Osniel Valdivia](#):

- What was done since the last scrum meeting?
 - Researched legal terms and entities such as CPOs, CFTC, NFA. Did initial research of the regulatory landscape of FOREX investment companies, specifically in regards to scale
- What is planned to be done until the next scrum meeting?
 - "Lawyer up" all the business regulations and technical regulations, familiarize myself with Stripe and Plaid
- What are the hurdles?
 - Understanding 3 domains, business regulations, technical regulations, and software engineering. Currently neglecting software engineering aspects to focus on the others
