

20190531 - Daily Scrum Meeting Minutes

20190531 - Daily Scrum Meeting Minutes

Attendees: [Jasmine Batten](#) [Osniel Valdivia](#) [Diego Vera](#) [Jonathan Dominguez](#) [Mohammed Bhatti](#)

Start time: 6:17pm

End time: 6:30pm

[Mohammed Bhatti](#) :

- What was done since the last scrum meeting?
 - Cloned the new repo
 - Ran old test scripts against the cloned repo to make sure they still work
 - Looked into the differences between EForT repo and spring repo
- What is planned to be done until the next scrum meeting?
 - Start looking at isolating user story feature against other user stories
- What are the hurdles?
 - No hurdles

[Diego Vera](#) :

- What was done since the last scrum meeting?
 - Cloned the new repo
 - Ran the same test on it
 - Looked into what I will have to merge and trying to figure out how to begin to merge code
- What is planned to be done until the next scrum meeting?
 - Write more tests
- What are the hurdles?
 - None

[Jasmine Batten](#) :

- What was done since the last scrum meeting?
 - Downloaded meld
 - Downloaded WinMerge to compare files
 - Reviewed Branching strategy
 - Downloaded SourceTree
 - Brushed up on git
 - Compared repos, made a list of which files should be added
 - Determined code flow of creating a subscription
 - Analyzed the dependencies in functionality of account controller
 - Created feature document for creating a subscription
- What is planned to be done until the next scrum meeting?
 - Start moving over feature to EFEC branch
 - Make sure all dependencies are updated to match current EFRT project
- What are the hurdles?
 - Can't start moving feature until branching strategy is finalized

[Jonathan Dominguez](#) :

- What was done since the last scrum meeting?
 - Analyzed differences in pwa vs main repo
- What is planned to be done until the next scrum meeting?
 - Start adding functionality of my account feature
- What are the hurdles?
 - Limited time today, new to MVC

[Osniel Valdivia](#) :

- What was done since the last scrum meeting?
 - Successfully cloned repo with read only access
 - Began looking into git history of the project in a gui
- What is planned to be done until the next scrum meeting?
 - Learn how industry handles massive integration issues and apply them to this situation
 - Attempt to merge the project at once if it makes sense
- What are the hurdles?
 - Lack of documentation for backup plan
