

20190129 - Daily Scrum Meeting Minutes

Attendees: Eddy Mogollon Pablo Mueller

Date: 29 Jan 2019

Start time: 03:30PM

End time: 04:15PM

Eddy Mogollon:

- What was done since the last scrum meeting?
 - Researched more card-like designs for displaying information.
 - Worked on the primary and secondary fields for the perp's information.
- What is planned to be done until the next scrum meeting?
 - Debug some grid issues (centering, alignment, etc).
 - Continue working on the fields that are shown first when the card is collapsed.
- What are the hurdles?
 - Still missing the mock data, and MDC Standards. However, we're picking the colors, top and side navbars off of miamidade.gov for now.

Pablo Mueller:

- What was done since the last scrum meeting?
 - Card arrangement is set up (grids, containers, collections, etc), now fully working with MaterializeCSS.
 - Vertical design mocked. Will present to the stakeholders during Sprint 1 Retro & Review Meeting.
- What is planned to be done until the next scrum meeting?
 - Style the Card Component.
- What are the hurdles?
 - Perpetrator's picture (on left column) doesn't get centered and it invades the object to the right (on the next column).
 - When styling vertical alignment with MaterializeCSS, valign-wrapper overwrites center-align under the className properties.
