- What was done since the last scrum meeting?
 - Worked on responsiveness for the side menu.
- What is planned to be done until the next scrum meeting?
 - Continue working on responsiveness for side menu
- What are the hurdles?
 - The responsiveness of materializecss overrides the responsiveness setting that I'm working on. It's an easy fix but for now I'll leave the one offered from materializecss off so I can work on my settings and then see how to override it.
