  - If I can finish Navbar, then start researching and working on WCAG

  - Navbar is taking a little bit longer cause of responsiveness resizing other components.

- What was done since the last scrum meeting?
  - Continued working on Download Button

  - Restructured buttons into components instead
- What is planned to be done until the next scrum meeting?
  - Finish Download Button, work on CSV
- What are the hurdles?
  - There's a small 1px gap between the menu bar and the component hard which I have to figure out how to fix.
