Carlos Vera :

- What was done since the last scrum meeting?
 - Kept working on piping between back-end and front-end for search functionality. Lack of results no longer breaks webapp
 - Read React/JS tutorials about the format of query results, how to access query keys, and more information about queries
- What is planned to be done until the next scrum meeting?
 - Read more about React map function for displaying table of results with inside tag
 - Read about other options for showing results data
- What are the hurdles?
 - None

Cristian Cepeda :

- What was done since the last scrum meeting?
 - Research how I can get user to stay logged on when they sign in and refresh the page or go to another page.
- What is planned to be done until the next scrum meeting?
 - Decided that when user logs in the token should be saved into local storage so that it can render the home page instead of the login page. As log as the user is still sign on and hasn't signed out.
 - Saving token to local storage fixed yesterdays problem
- What are the hurdles?
 - None

Julian :

- What was done since the last scrum meeting?
 - Started looking into results page to display the search results based on matter names
