

20181113 - Daily Scrum Meeting Minutes

Attendees: Adrian Rodriguez Carlos Vera Cristian Cepeda Julian Oscar Antonio Padilla

Start time: 6:00 pm

End time: 6:30 pm

Adrian Rodriguez :

- What was done since the last scrum meeting?
 - Created ItemViewPage containers and views, started modularizing the view item page
- What is planned to be done until the next scrum meeting?
 - Finish the item portion of view item
- What are the hurdles?
 - Bitbucket loss of data

Carlos Vera :

- What was done since the last scrum meeting?
 - Connect with Julian about advanced search filters, describe my previous commit to AGDA-88
- What is planned to be done until the next scrum meeting?
 - Review AGDA-88
- What are the hurdles?
 - None

Cristian Cepeda :

- What was done since the last scrum meeting?
 - Playing around with jsPDF to create a pdf based on users input to form for each item.
 - Started working on Homepage layout to show content.
 - Created a route for statistics page
- What is planned to be done until the next scrum meeting?
 - Continue working on home page
 - Create a pdf based on users input for a procurement
- What are the hurdles?
 - None

Julian :

- What was done since the last scrum meeting?
 - Advanced search filters such as searching by contract number, matter type and deadline need to be finished.
 - Cleaned up some front-end elements of the advanced search modal
- What is planned to be done until the next scrum meeting?
 - All advanced search filters are now finished, will continue to test out different search scenarios for functionality purposes.
 - Help the team out if needed with the jsPDF creation based on user input
- What are the hurdles?
 - None

Oscar Antonio Padilla :

- What was done since the last scrum meeting?
 - Linked view item get controller to history get, so that the item view page receives version history info
 - Started functions for updating an item
- What is planned to be done until the next scrum meeting?
 - Continued edit/update functions
 - Tested view item with front end, sketched out the ui with more detail
 - Added mtkey 10 for testing View Item, and mtkey 12 for testing pdf conversion and upload, onto DB. Both include real content. mtkey 10 has history, mtkey 12 won't have history until successfully uploaded once we're testing.
- What are the hurdles?
 - None
