

20181115 - Daily Scrum Meeting Minutes

Attendees: Adrian Rodriguez Carlos Vera Cristian Cepeda Julian Oscar Antonio Padilla

Start time: 6:00 pm

End time: 6:30 pm

Adrian Rodriguez :

- What was done since the last scrum meeting?
 - Implemented History components to item view page
 - Enabled a user to click a history to download a pdf of that version for an item
- What is planned to be done until the next scrum meeting?
 - Validation on item creation
 - Item view page front end- begin development
- What are the hurdles?
 - None

Carlos Vera :

- What was done since the last scrum meeting?
 - Finish changing results page so that it is more flexible
 - Make columns depend on results from SQL query
 - Change searchController.js queries so that the selected column names return more user-friendly values (i.e. "Matter Name" instead of mtname)
 - This is required for AGDA-72
 - Start researching on how to make the results usable as a sub-component AND as a component that's been redirected to
 - How the data is accessed in Results component is different for each case
- What is planned to be done until the next scrum meeting?
 - Finish AGDA-72 and start on the front-end work for this
- What are the hurdles?
 - None

Cristian Cepeda :

- What was done since the last scrum meeting?
 - Did Homepage mockup CSS
 - Added button that redirects to statistics page when user hits the button under statistics section
 - Added PropTypes and fixed ESLint errors
- What is planned to be done until the next scrum meeting?
 - Added role-based browsing if the application's state variable inDevelopment is set to false
- What are the hurdles?
 - None

Julian :

- What was done since the last scrum meeting?
 - New mtlastuser value added to matter table in order to display users who last edited an item in advanced search
 - Looked into adding new advanced search filter for displaying the most recent user with respect to the matter they edited
- What is planned to be done until the next scrum meeting?
 - Start looking into doing the advanced search without it being case sensitive
 - Link the matters displayed in the results page of a search to their respective item view page along with Carlos
 - Look into doing partial searches for regular and advanced search
- What are the hurdles?
 - None

Oscar Antonio Padilla :

- What was done since the last scrum meeting?
 - Update History & Matter table and controller functions, so we can keep track of who last edited a matter i.e. record its trail.
 - Look into the PDF conversion problem.
- What is planned to be done until the next scrum meeting?

- Worked with Adrian to fully connect View Item front end and back end with version history
 - Add display name with history get query, and discuss pdf creator.
- What are the hurdles?
 - None
