20181014 - Sprint 3 Retrospective Meeting Minutes

Attendees: [Adrian Rodriguez](#) [Carlos Vera](#) [Cristian Cepeda](#) [Julian Oscar](#) [Antonio Padilla](#)

Start time: 7:00PM

End time: 9:00PM

What went wrong?

- Daily Scrums
- Seems like procrastination is a problem, probably due to the exams though
- Not communicate if we are having trouble / Not share with the group your hurdles
- Development progress, especially for back-end logic

What went right?

- Meetings
- Communication again
- Stayed on top of each other as for the tasks we were assigned for the sprint
- We now have an agenda for the PO meetings to ask more specifically what we need for development.
- We had something to showcase at the end of the sprint

How to address the issues in the next sprint?

- Peer programming, especially for blocking work
- Make sure we communicate what is blocking us so we can go forward with our tasks for the sprint
- Letting others know if you rely on their part and communicating on progress so we can all move forward consistently and in a smooth fashion which would contribute to a successful and progressive Sprint.
- Practice more with react and not just read documentation
