- What was done since the last scrum meeting?
 - Improved design of canvas tool bar
- What is planned to be done until the next scrum meeting?
 - After speaking with TA and research we have decided to shift the project to a web application. So by the next scrum meeting I will be working on choosing a web app language and researching how to create the same canvas for the web.

Robert Panoff

- What was done since the last scrum meeting?
 - Research on alternatives
 - Spoke to TA on how to do effectively have multiple unit sync up
 - TA helped us come up with a web portal idea that would allow different users (or people sitting at the table to connect) to the same instance and then see what others were doing
 - Will attempt to do this by having each user remote into the same instance and then partition control.
- What is planned to be done until the next scrum meeting?
 - Figure out how to remote multiple users into the same desktop via a web portal
- What are the hurdles?
