What went wrong?

- Did we do a good job estimating our team's velocity? Yes
- Did we do a good job estimating the points (time required) for each user story? Yes
- Did each team member work as scheduled? Yes all developer worked as scheduled

What went right?

- We spent the extra time needed to polish the app and ensure that it is visibly pleasing by getting feedback from other's on the user interface.

How to address the issues in the next sprint?

- How to improve the process? Work on updating our github branches more often so that we have the most recent code to work with.
- How to improve the product? Get feedback from our project manager as often as possible.
