

# INTR-19 User can send notes to a specified user

User Story Name:  **INTR-19** - User can send personal notes to a specified user DONE

Name: [Cristina Alonso](#)

Team Member(s): [Cristina Alonso](#) [Robert Panoff](#)

Project: Interactive Table

Product Owner(s): [Hadi Alhaffar](#)

Mentor(s): [Masoud Sadjadi](#)

Instructor: [Masoud Sadjadi](#)

## Description

**As a User I would like** send my notes to other users **so that** they can view my notes from their own screen.

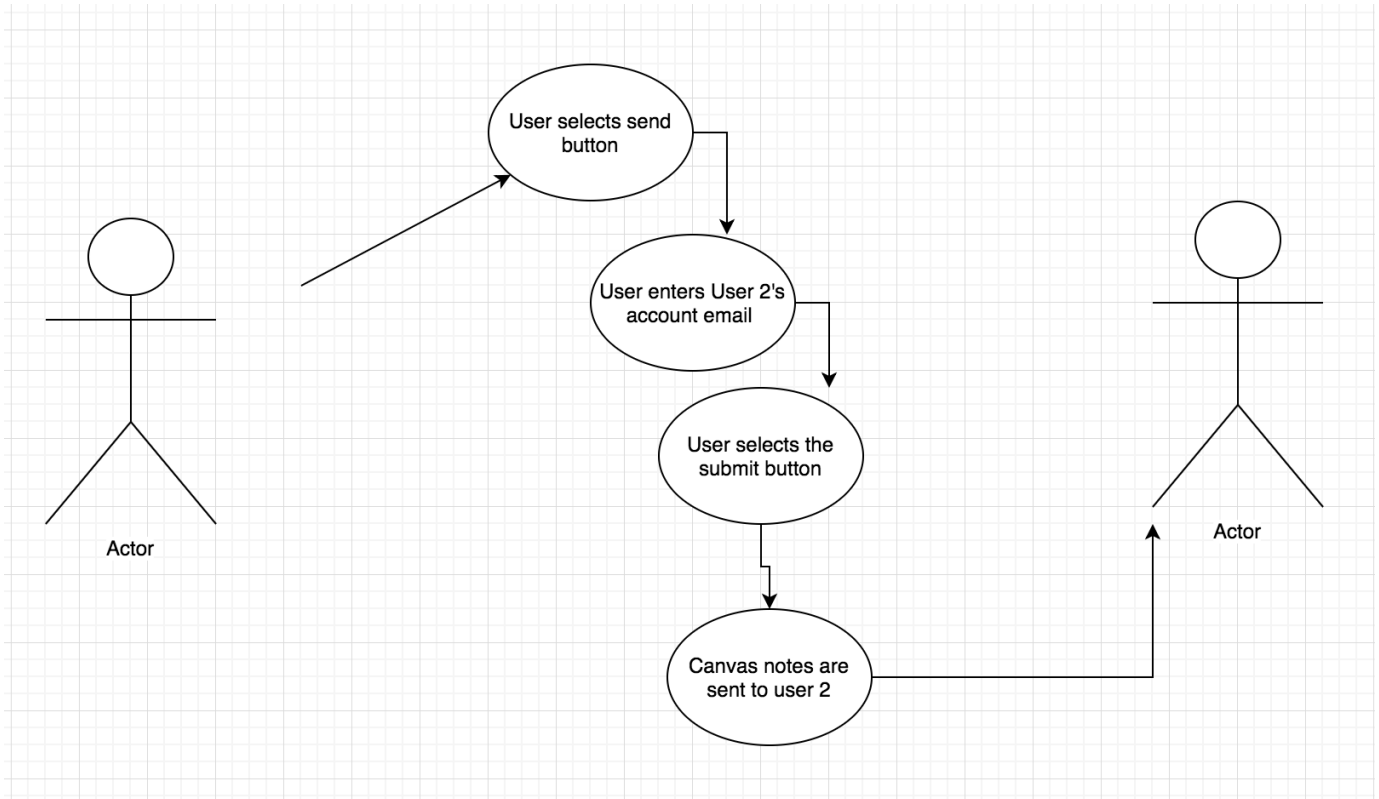

Acceptance Criteria:

- User can choose an image in their saved images to send
- User can type the user id of the person they want to send their notes to
- User can send the notes to the specified user

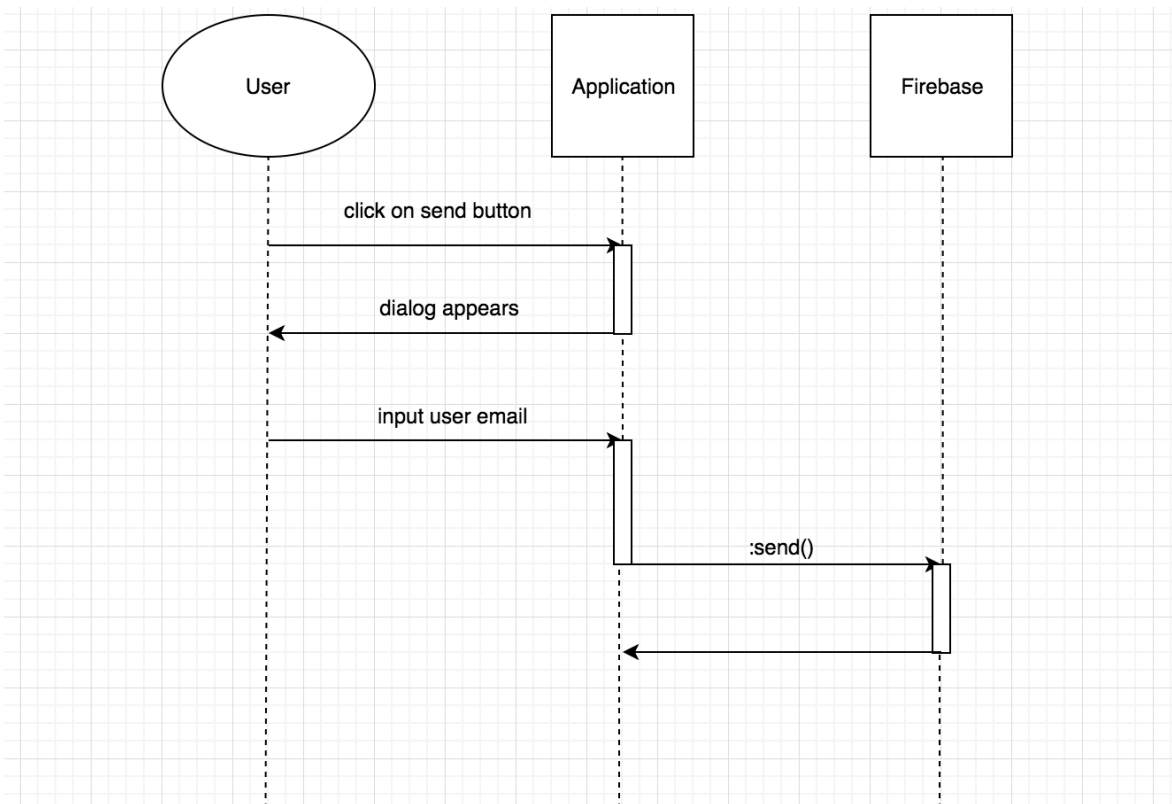

## Use Case

- Name: User can send notes to a specified user
- Actor: User 1, User 2
- Preconditions: User 2 has a personal account created and User 1 is in personal/shared notepad tab
- Description:
  - User 1 selects the send button
  - User 1 enters User 2's email
  - User 1 clicks submit
  - The notes on the canvas are sent to user 2
