Description

As a User I would like to send portions of multi user canvas to my personal canvas **so that** I can save it to my file list and make updates to it.

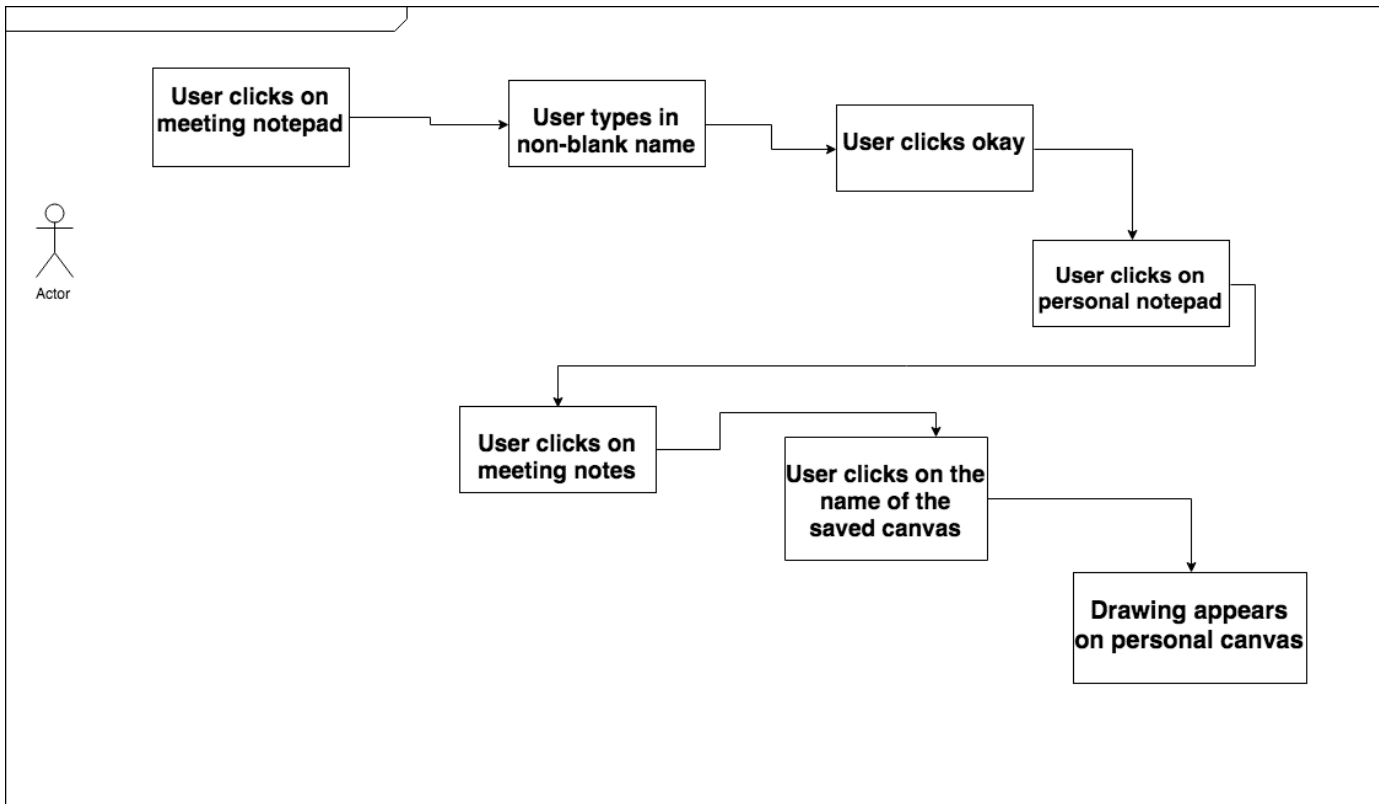

Acceptance Criteria:

- User can select portion from shared canvas and send it to their personal notepad
- Users can save this portion to their account file list
- User can make updates to this drawing

Use Case

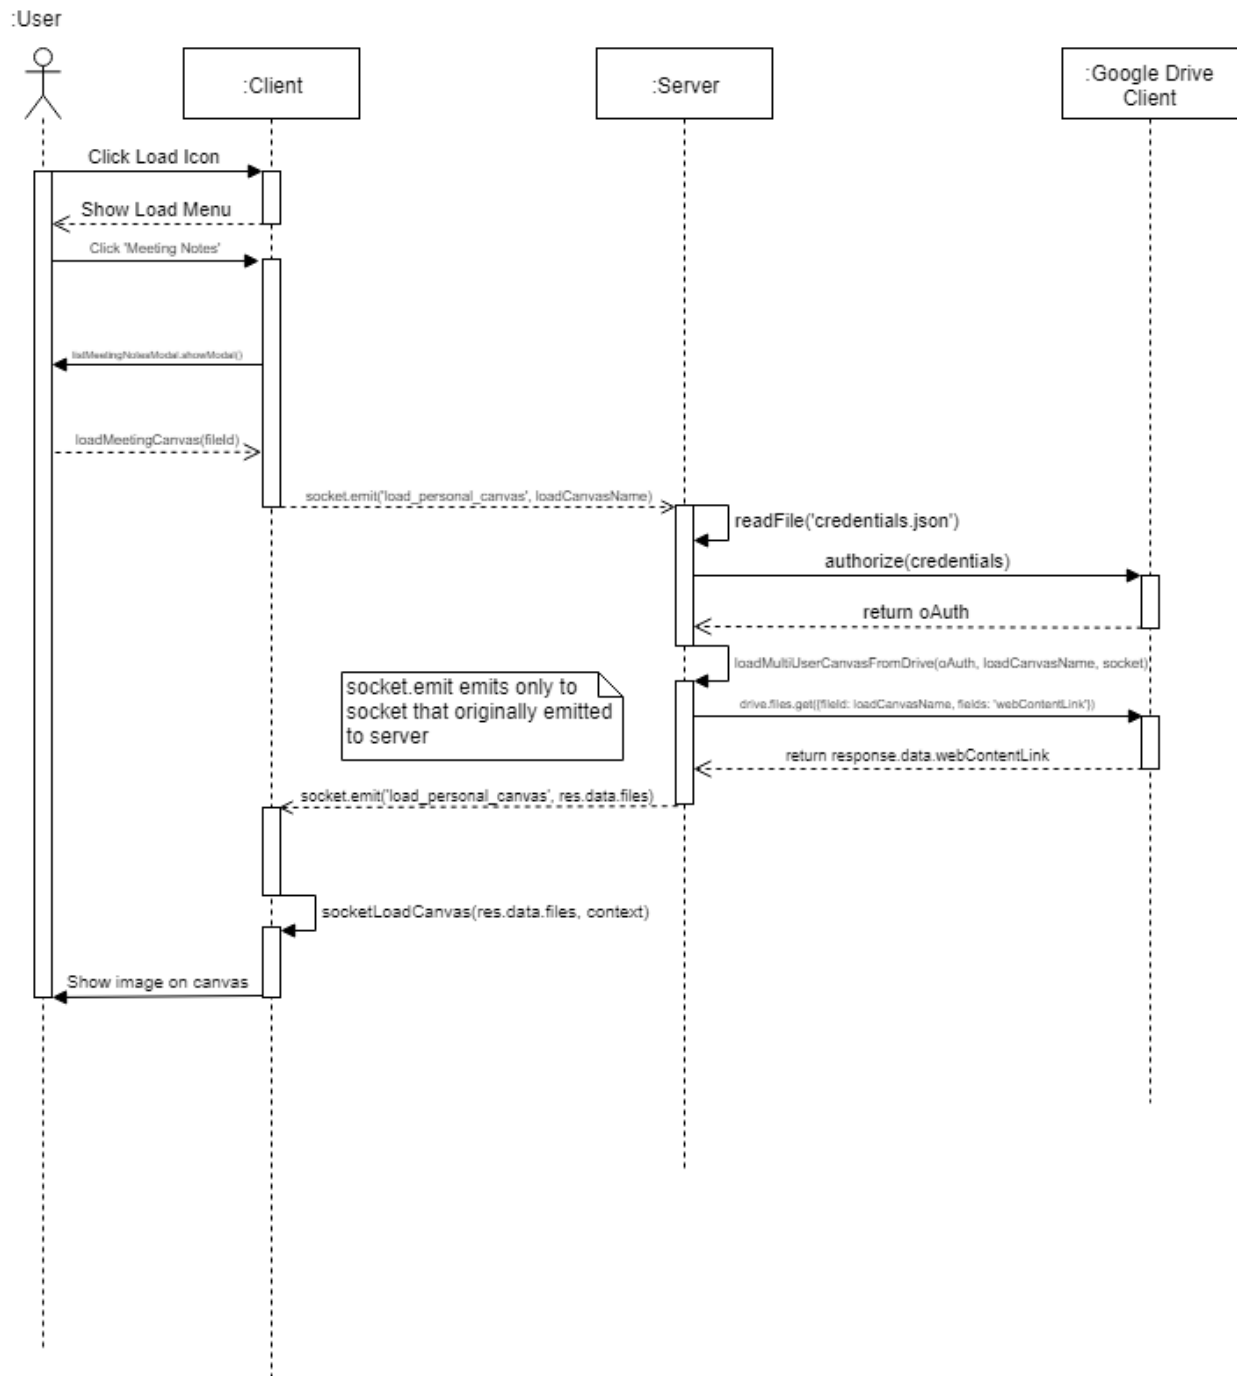

- Name: Saving a canvas from a shared canvas to the personal canvas
- Actor: user
- Preconditions: User is on the shared canvas
- Description:
 - User clicks on the save button and a dialog appears
 - User is prompted to enter a name for the canvas
 - User types in non-blank name
 - User clicks okay
 - User clicks on personal notepad
 - User clicks on meeting notes
 - User clicks on the name of the saved canvas
 - Drawing appears on personal canvas

	socketLoadCanvas()
	socketGetMeetingId()
	socketListMeetings()

Test

- Test case ID: 19
- Description/Summary of Test: Draw on meeting canvas and save it to group meeting. Open it up from within the personal canvas.
- Pre-condition: User has a drawing displayed on meeting canvas
- Expected Results: The meeting canvas drawing will upload to the group meeting folder and can be accessed on the other canvas.
- Actual Result: The meeting canvas drawing was saved to the meeting and could be opened up from within the personal canvas.
- Status (Fail/Pass): Pass
