@Nicolas Gonzalez:

- What was done since the last scrum meeting?
 - Implemented Carla's method for error handling macros.
- What is planned to be done until the next scrum meeting?
 - Going to work on getting our RPC server to run at game startup and shutdown
- What are the hurdles?
 - I seem to be having some trouble stopping the async task that I am creating, still need to experiment more.

@Emmanuel Perez:

- What was done since the last scrum meeting?
 - Matching how rpc lib was implemented in the CARLA project example to make our rpc lib work with our project.
- What is planned to be done until the next scrum meeting?
 - Continue trying to fix the errors the rpc lib is still creating when trying to use it for the server.
- What are the hurdles?
 - Understanding how CARLA implemented most of their rpc lib and having more time to finish fixing the rpc lib.
