

Stand Up 11/16/2018

20181116 - Daily Scrum Meeting Minutes

Attendees: Nicolas Gonzalez, Emmanuel Perez

Start time: 7:25

End time: 8:10

@Nicolas Gonzalez:

- What was done since the last scrum meeting?
 - Sprint planning
 - Since we were having so much trouble getting RTSP streaming out to work properly we decided to scrap it for now. Dr. Alonso may have a solution to try but it would not give us much time to be ready and have polished demo for the showcase
 - we instead will work on some other stories to polish the project up
- What is planned to be done until the next scrum meeting?
 - I'm going to starting looking into adding input with a gamepad
- What are the hurdles?
 - none currently

@Emmanuel Perez

- What was done since the last scrum meeting?
 - Sprint review/planning
 - Found out that the wheels where still trying to load with the measurements of previous model, so had to remove the pawn and let game mode spawn a pawn with Q7 assets for the wheels to work.
- What is planned to be done until the next scrum meeting?
 - Going to fix the pawn to load properly with the Q7 model and fix the HUD t display well
- What are the hurdles?
 - None at the moment
