

Sprint 2 Retrospective

20180928 - Sprint 2 Retrospective Meeting Minutes

Attendees: Nicolas Gonzalez, Emmanuel Perez

Start time: 3:00 pm

End time: 3:15 pm

What went wrong?

- Did we do a good job estimating our team's velocity? No we did not. We expected to have been done with this task before this sprint ended.
- Did we do a good job estimating the points (time required) for each user story? No, the task assigned gave problems that we did not anticipate.
- Did each team member work as scheduled? Similar to last time, our busy work and class schedule has not helped us working in this task's problem.

What went right?

- We started understanding a bit better the reason why the problem was occurring.

How to address the issues in the next sprint?

- How to improve the process? We need to get past the major stories that are bottle necking our work.
- How to improve the product? Starting on creating the product.
