Subject: Thank you

Dear Chief,

This note is late in coming but it's no less true. I have been meaning to email you for some time now and realize recently that I had not yet done it.

I want to say thank you to you and all the officers who worked so hard in the wake of the hurricane. I was so impressed with the response around Pinecrest. I don't know how it was possible but it seemed that every disabled traffic signal and every downed tree in a road had an officer standing by for public safety and still there was enough police present around the neighborhoods to make everyone feel safe. I know that the officers must have put in extremely long hours and probably went home to houses out of power.

I wanted you to know that all the hard work wasn't unnoticed. Please pass along my gratitude. Thank you for your leadership and for all the staff and officers who work so hard to make our community great.

all the best,

John
