MEMORANDUM
Department of Police

DATE: May 29 2018
TO: All
FROM: *Derrick Bowman*
Derrick Bowman, Major
RE: Officer Feedback (Rifle and Active Shooter Training Course)

Our departments training section recently completed an excellent shoot/move and transition training block for all sworn personnel. The course of fire provided a challenging dynamic to the departments overall lethal weapons training program. During several debriefs with officer's feedback on the training was provided. Based on the officer feedback received, the department's leadership has taken the following steps.

A purchase order has been made for new **one-point tactical slings** for each patrol rifle and **extra AR-15 Magazine's will also be purchased; which will allow each officer to be issued their own spare magazine,** to be kept in their personnel gunshot trauma bag-magazine holder. One magazine will remain in the vehicle assigned patrol rifle.

I want to thank those officers who provided this important feedback, which has provided the department's leadership with the information needed to continue to make improvements within our department.
