

Vehicles have been parking on the dead end road beside complainant's residence (See attached scan). The complainant is a doctor, sometimes works until the early hours of the morning, and his family is home alone. He is worried about his family's safety, as he's seen a variety of vehicles park here, without the occupants exiting their vehicle to visit any nearby residents.

Zone units, and any other units that are in the area, please conduct regular watch orders at this location and contact occupants of any parked vehicles you see here to ascertain their reason for being parked on the dead end street. Please email me and Lt. Osorez if contact is made with anyone at this location.

This watch order is effective until 09/21/2018

Thank you,

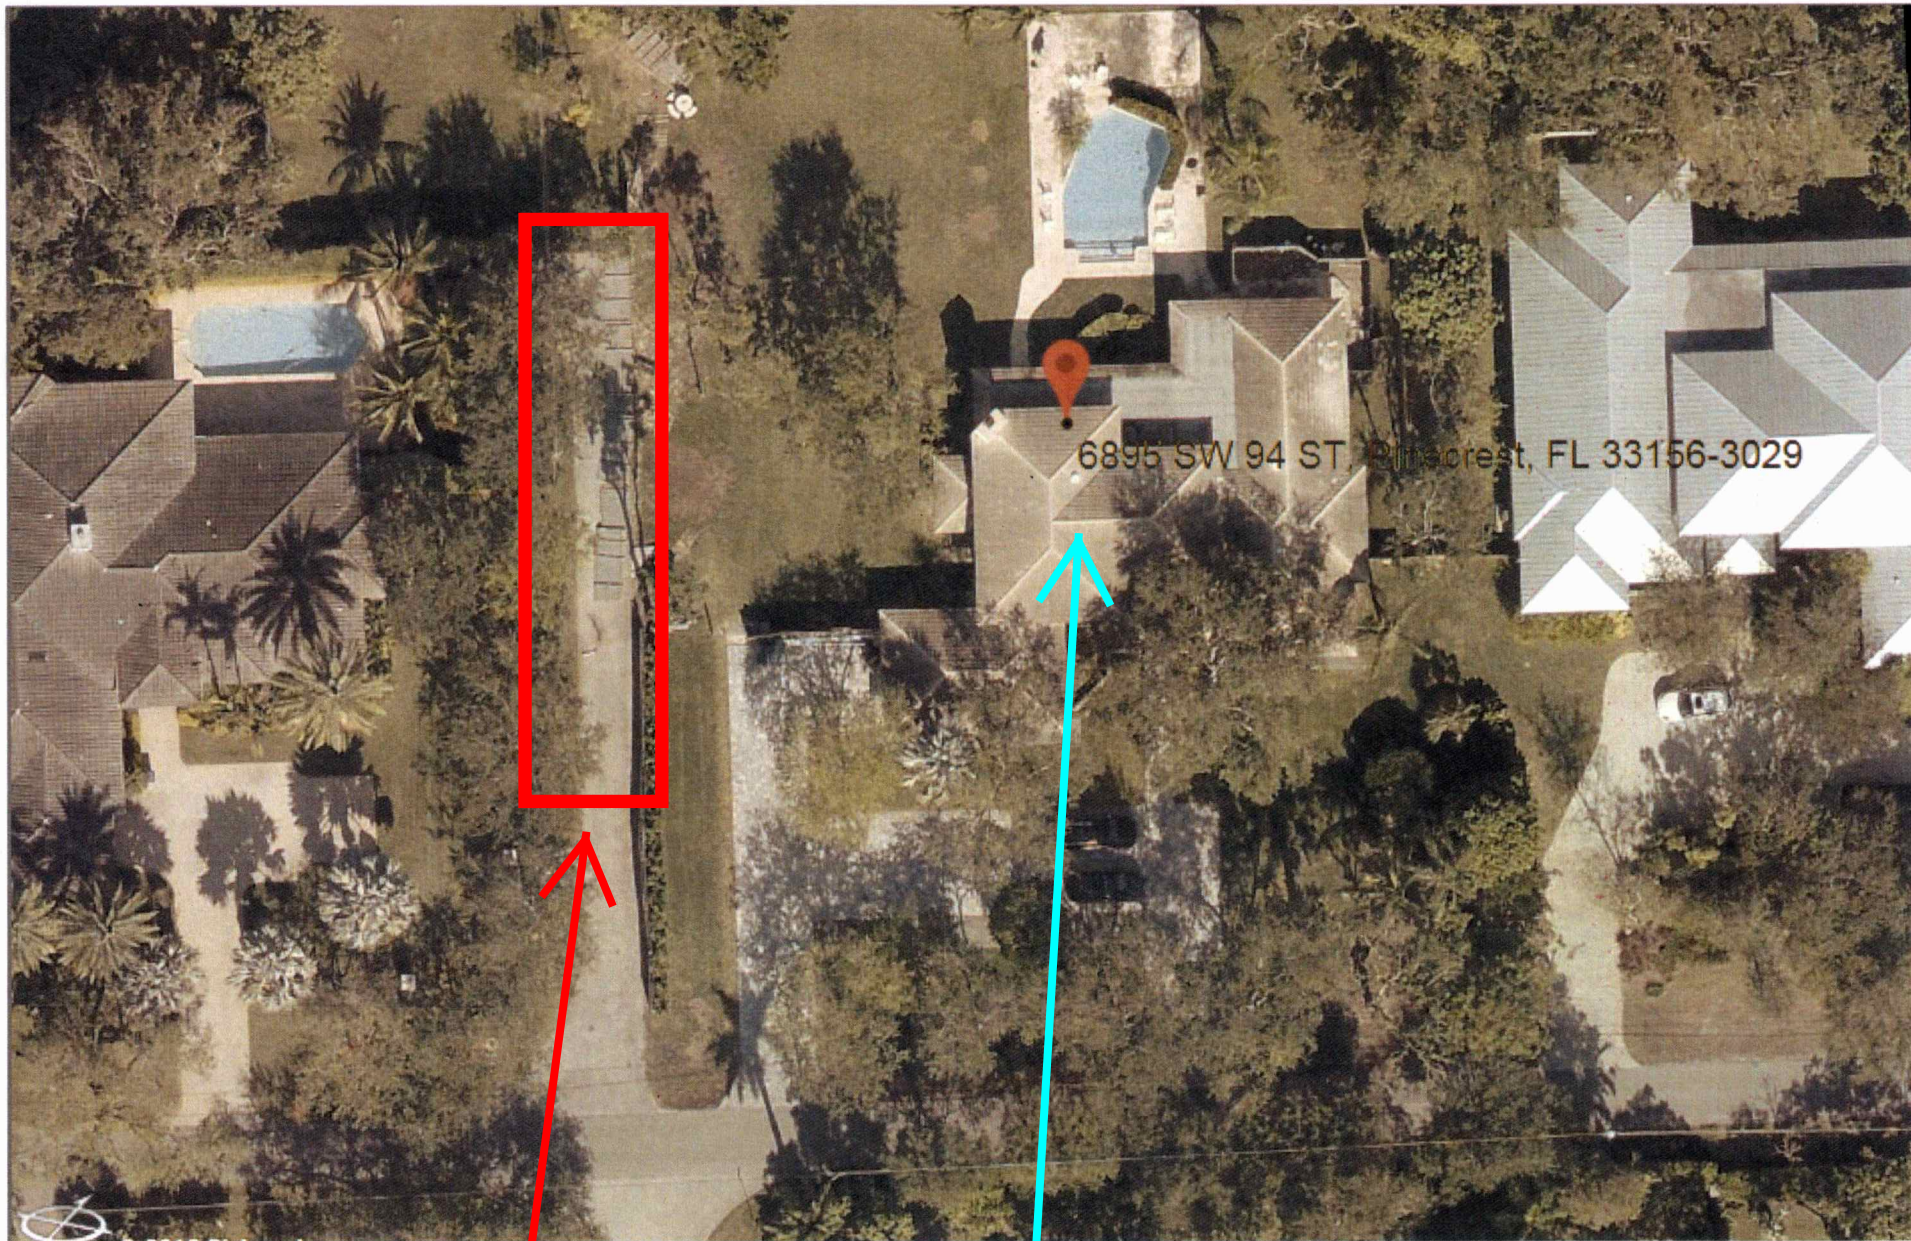

Lt. Bridges
